

JAVELIN DNA SERIES

NOW WITH NEW FEATURES

The Javelin desktop series now has 3 main models: the Javelin DNA, which is an entry-level manual feed printer, the Javelin DNA-PRO which has input and output hoppers (auto feed) and the Javelin M-Boss with a specially designed print head for pre-embossed cards. All models have easy to read LCD displays for ease of use. In addition, we have introduced a few new features to these models such as a mobile app, enabling you to send card images from your Android or tablet, re-write feature for re-usable cards and Data Shield to protect the data visible on the ribbon when printer to a card and software security lock.

WHAT'S NEW TO THE JAVELIN SERIES?

Javelin Data Shield is an upgrade option that is designed to obscure the data printed on the printer ribbon. This means the data printed cannot be copied and prevents the data being fraudulently re-used helping to improve security and data protection.

New **Javelin Software Lock** enabling you to enhance your security when issuing cards. As an additional upgrade, the Javelin software lock is password secured giving you maximum control on how cards are issued.

Javelin Re-write enables you to print onto the surface of a re-write card in mono by using the heat from the printhead. No consumable required as the image is printed using the special card surface. Printed image can be erased and reprinted as and when necessary required.

Javelin Designer App enabling you to create and design cards that can be sent to print in a few simple steps. Print images, logos and barcodes and save the design - card printing has never been so easy. Free to download on Android only.

NEW MOBILE APP FEATURES

- Save card templates.
- Print barcodes.
- Print logos.
- Ability to print single sided and dual sided.
- Magnetic stripe encoding.
- Print QR codes (2D)
- Live capture photos using phone camera.

Open the App and select your DNA Printer using Wifi.

Images, Text and Barcodes can be added and sized.

Mag encoding can then be added to the card design.

Tap the printer icon and your card will be printed wirelessly ready to issue.

*Javelin Designer App is only available on Android powered devices via the play store.

UPGRADES

For Javelin DNA & Javelin DNA Pro

- WIFI (To link to mobile app)
- Single or dual-sided printing
- Contact encoding
- Contactless encoding
- Mag Encoding
- Lid Lock & Kensington Lock to secure to table
- Software Lock (*New)
- Card Re-Write (*New)

For Javelin DNA Pro:

- Pre-Embossed print head
- Dual Side Hopper
- Hopper Lock
- Data Shield (*New)

STEPPED PRINT HEAD

JAVELIN DATASHIELD

SYSTEM

Display:	LCD & LED
Supported Platforms:	Microsoft Windows XP/Vista/7/8/10
Printer Interfaces:	USB 2.0 Internal USB hub to connect peripheral devices
CPU & RAM	CPU: 32 bit processor RAM: 128MB
Operating Temp & Humidity:	5-40°C / 41-104°F, 20-90% RH non-condensing Storage temperature: -10-60°C / 14-140°F

DIMENSIONS

Javelin DNA	305.6mm(L) x 184mm(W) x 228mm(H) 3.7kg / 8.16lbs
Javelin DNA PRO	366mm(L) x 184mm(W) x 228mm(H) 4.5kg / 9.92lbs

POWER SOURCE

Input: 100V-240 V, 50/60 Hz; Output: DC 24V, 2.5A (FCC Class A, CE and CCC ,KCC, Energy Star approved)

CAPACITY

Card capacity for Javelin DNA PRO
Input hopper: 100 cards (.076mm), Output hopper: 60 cards (076mm)

BARCODES

Code 39, Code 128 B&C with & without check digit. 2 of 5 interleaved UPC-A, EAN 8 & EAN 13 PDF-417 2D barcode and other symbols can be printed via Windows drivers.
